

Vedr.: Batterikåbe kort model	PUP nr.:	18-002
	Udarbejdet af:	LPA
	Dato:	26-09-2018

Batterikåbe kort model kommer i et nyt design. Den gamle model leveres så længe lager haves, og derefter er det kun den nye model der fås.

Batterikåben er bagud kompatibel, og passer dermed på alle vore scootere.

Gammel model – glatte flader

Ny model – profil foran og på siden

The battery cover short has been redesigned. The old model is delivered until the stock is empty, and hereafter we only deliver the new one.

The new battery cover is rearward compatible, and therefore fits all our scooters.

Old model – no profiles

New model – profile in the front and on the side.
